Artwork & Design: the sparkplugs

unhold GOLD CUT

After two full length albums UNHOLD gathered forces for „Gold Cut“ once again and set a task to merge beauty and beast into one single hybrid creature – fierce, intimidating, beautiful and compelling. „Gold Cut“ is the outcome of four years of hard work, boiling down tons of material to 9 songs, clocking in at over fifty minutes.

In order to pick up where „Loess“ left the band, a toll had to be paid to take the whole venture a step further in making this record. UNHOLD, now in their prime, teamed up with a few adept aquanauts and took a deep dive into the bottomless pit of the project, everyone yielded, delivered and turned up pretty much unharmed.

Sometimes it's called for – to let go of something dearly loved and craved in order to break up and explore new frontiers. Make the shift consciously and keep in honour what you leave behind. Work in modesty and harvest when time is due. The gold cut.
